

OMNISAT DOME

Internal view of system

Included satellite receiver and remote control

■ Dimensions

OMNISAT DOME

Model Code: **MXL002**

Fully automatic self seeking satellite system

The dome control electronics have been combined with the free to air satellite receiver box to minimise electronics and maximise performance and reliability of the system. This means all you have to do it is park up, switch on and enjoy.

The receiver is pre-set to the correct satellite for UK channels (other satellites can be easily selected). The most popular UK TV channels are pre set at the top of the channel listing. The receiver comes complete with a remote eye allowing the unit to be conveniently hidden out of site, whilst still being operated by the remote control.

The Dome design ensures that you can use the system with its built-in free to air receiver, or combine it with either a freesat HD 12/230 volt receiver with digital HD programs and digital radio, or a Sky TV subscription service.

- Receives 100's of TV and radio channels
- Automatic satellite tracking system when stationary, no need for manual tuning
- Typical search time is less than 30 seconds
- Low profile dome design with an equivalent 60cm dish performance.
- Receives transmissions from ASTRA 1, ASTRA 2, HOTBIRD & TURKESAT
- Clear and easy to use control panel
- Designed for simple and easy installation: Only one cable from system to receiver (Combines power and signal). Screw or/and flexible adhesive fixing method.
- Aerodynamic, unobtrusive, and compact casing
- Sky or freesat receiver can be connected via loop through
- Programme reminder, Comprehensive EPG, Subtitles, Picture Pause, Split screen option (12 channels)
- Kit includes: Free To Air, Remote Control with sensor extension, Weatherproof Cable Entry Cover, 'F' to 'F' Cable and all installation accessories

Technical Data:

- Dish Size: Offset 60 x 30cm
- Single LNB: Universal
- Frequency: 10.70 - 12.75GHz
- Polarisation: Linear
- Operation: Stationary
- Azimuth Range: No Limit
- Elevation Range: 15 - 16°
- Elevation Speed: 60°/sec
- Operating Voltage: 12/24V DC
- Storage Temp -30°C to -70°C
- Operating Temp -15°C to -50°C
- Weight: 11.60kg
